Spectrum Cement Division

To: _____ **Date:** _____

Attention:

From: Mike Hill

Subject: Submittal for approval

Project:

Spectrum Lime Plus

Product information:

Spectrum Lime Plus is manufactured by our Spectrum Cement Division of Buda, Texas. The product replaces Hydrated Lime and is intended for use in mortars or cementitious stucco finishes. Lime Plus is an innovative proprietary blend of plasticizing agents and powdered marble. In mortars Lime Plus offers greater workability and longer summer mortar board life than Hydrated Lime. At additional cost Lime Plus is available blended with Spectrum integral water repellent. For masonry purposes 50 lb. bags of Lime Plus can be used in the following fashion:

- For Mortar meeting Type N Strengths mix 1 bag of Lime Plus with 1-92.6 lb bag of Portland cement and masonry sand.
- For Mortar meeting Type S Strengths mix 1 bag of Lime Plus with 2-92.6 lb bags of Portland cement and masonry sand.
- In both N and S applications above masonry sand should meet ASTM C144 and the amount should be no less than 2¼ & no more than 3 times the volume of the cementitious material.

AHI suggests that the project Engineer and/or Architect, masonry contractor and all other appropriate parties review this product & submittal and determine its acceptability prior to the initiation of the project.

Should you require information on the ASTM Specifications controlling our product, samples of our product, Material Safety Data Sheets, references or if we may be of service to you in any way, please contact us.

**Thank you for the opportunity of furnishing this
quality product on your important project!**
